Practice Etiquette... How to avoid those *Practice Faux Pas*

- (1) Please come early to help set up.
- (2) **All dogs should be on lead or in a crate, except when running.**
- (3) Be ready to practice when it's your jump height.
- (4) Limit your practice time each round to **5 minutes**.
- (5) Help set jump bars when you're not running your dog.
- (6) No one should be using obstacles on the course if it is not actually his/her turn to run, including during course building and walk through.

Practice will begin once the equipment is set up (most of the time Kim has a course set-up for us). The more people there to help set up, the more quickly practice will begin. People are welcome to come, practice and leave anytime. Each practice round for a dog/handler team is limited to **five minutes**. No breakdown of the course is required.

Outdoor practice fields

Outdoor practice fields are **available** to GSLAC members **at all times**. There is no practice monitor or planned course. The equipment is always on the field. You are welcome to reset and tweak the course. Please be polite and work together with other GSLAC and Kim's Canine Club members that may be there. Each practice round for a dog is limited to five minutes.
